

Leveling Devices

High Value Series Socket Style with Elastomer Pad Steel with Gold Chromate Finish

Vlier's high value series socket style leveling devices are of premium quality construction, with optimum plating, finishing and cosmetics. These levelers feature a .125 inch neoprene elastomer pad bonded to the bottom of the base for non-skid support. These devices provide stable, secure leveling with a large diameter base support and are available in a steel design with gold chromate finish.

Typical Uses

- Data storage equipment
- Large medical equipment
- Material handling equipment
- Industrial workstations
- Industrial machines

Special Features

- Hardened ball
- Integrally machined hex
- Non-skid elastomer pad protects floor/surface finish
- Large diameter base support
- 15° swivel off centerline
