

Leveling Devices

High Value Series Stud Style Stainless Steel

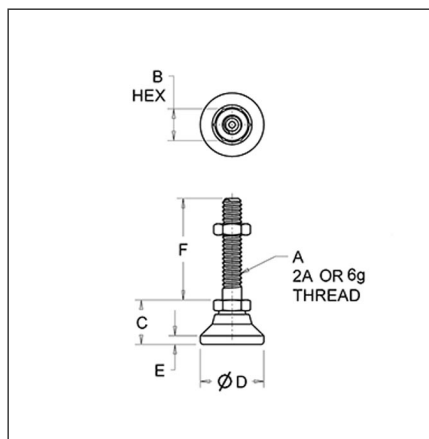

Vlier's high value series stud style leveling devices are of premium quality construction, with optimum plating, finishing and cosmetics. These levelers in stainless steel provide an integrally machined stud as part of the ball. The stud style bases swivel 15° off the centerline to adjust to uneven surfaces and level machine tools, electronic racks, benches, data storage, power generation, machine centers and others. The stainless steel design provides maximum protection from rust and corrosion.

Typical Uses

- Data storage equipment
- Large medical equipment
- Material handling equipment
- Industrial workstations
- Industrial machines

Special Features

- Hardened ball
- Stud with integrally machined hex
- Large diameter base support
- 15° swivel off centerline
- Stainless steel resists rust and corrosion
