

# Leveling Devices

## High Value Series Stud Style Steel with Nickel Finish

Vlier's high value series stud style leveling devices are of premium quality construction, with optimum plating, finishing and cosmetics. These steel levelers have a nickel finish and provide an integrally machined stud as part of the ball. The stud style bases swivel 15° off the centerline to adjust to uneven surfaces and level machine tools, electronic racks, benches, data storage, power generation, machine centers and others.

### Typical Uses

- Data storage equipment
- Large medical equipment
- Material handling equipment
- Industrial workstations
- Industrial machines

### Special Features

- Hardened ball
- Stud with integrally machined hex
- Large diameter base support
- 15° swivel off centerline

## High Value Series Stud Style - Steel w/Nickel Finish
