

Leveling Devices

High Value Series Stud Style Extended Length w/ Elastomer Pad Steel w/ Gold Chromate Finish

Vlier's high value series stud style extended length with elastomer pad leveling devices are of premium quality construction, with optimum plating, finishing and cosmetics. These steel levelers provide an integrally machined stud as part of the ball. The stud style bases swivel 15° off the centerline to adjust to uneven surfaces and level machine tools, electronic racks, benches, data storage, power generation, machine centers and others. The standard steel design is zinc plate with gold chromate finish.

Typical Uses

- Data storage equipment
- Large medical equipment
- Material handling equipment
- Industrial workstations
- Industrial machines

Special Features

- Hardened ball
- Extended stud with integrally machined hex
- Large diameter base support
- 15° swivel off centerline

High Value Series Stud Style Extended Length w/ Elastomer Pad - Steel w/ Gold Chroma Finish
