

# Leveling Devices

## Original Series Stud Style Stainless Steel

Vlier original series stud style leveling devices in stainless steel offer maximum protection against rust and corrosion. They provide an integrally machined stud as part of the ball. The bases swivel 15° off the centerline to adjust to uneven surfaces and level equipment including machine tools, electronic racks, benches, data storage, power generation, machine centers and others.

### Typical Uses

- Data storage equipment
- Large medical equipment
- Material handling equipment
- Industrial workstations
- Industrial machines

### Special Features

- Hardened ball
- Stud with integrally machined hex
- Large diameter base support
- 15° swivel off centerline
- Stainless steel option resists rust and corrosion
